ABSTRACT

Sec No- S4	Team No- 14	Project Title - Smart Hostel and Mess Administration Management Information System
Team Lead Roll Number	2520030551	
Team Lead Name	M Sai Bhavitha Reddy	
Team Member Roll Number	2520030333	
Team Member Name	Ramagiri Rishik	
Team Member Roll Number	2520030370	
Team Member Name	G. Hitesh	

1. Abstract

The **Smart Hostel and Mess Administration Management Information System** is a digital platform designed to simplify hostel and mess management in educational institutions. Traditional manual methods make it difficult to manage room allocation, student records, fees, attendance, complaints, and mess services efficiently.

The proposed system provides a centralized platform for **student registration, room allocation, attendance tracking, fee management, mess administration, complaint handling, and notice updates**. Administrators can manage hostel operations through a single dashboard, while students can easily access their information, submit complaints, and receive important updates.

The system reduces paperwork, minimizes errors, saves time, and improves transparency. It provides an efficient and user-friendly solution for managing hostel and mess activities while enhancing the overall experience for both students and administrators.

2. Module Mapping

Module Name	Assigned Roll Number(s)	Signature
Student & Hostel Management	2520030551	
Administration & Complaints	2520030333	
Mess Management	2520030370	

3. Module Details

- **2520030333:** Handles student registration, login, room allocation, and attendance.
- **2520030091:** Handles mess menu, meal tracking, mess attendance, and feedback.
- **2520030433:** Handles admin dashboard, fee management, complaints, notices, and reports.

4. Frameworks / Platforms / Software Used

- **Frontend:** HTML, CSS, JavaScript
- **Backend:** PHP
- **Database:** MySQL
- **Development Tool:** VS Code
- **Platform:** XAMPP
